Mr. C. Bascom Slemp, elected to Confew days ago, is the first son elected to immediately succeed his father in the stealing of the bill, which was merely an House of Representatives.

This is error, two instances of late oc currences being cited. Hon Morris Sheppard, of the First Texas district, was of the Fifty-seventh Congress, and Mr. Sheppard is still filling that seat.

A few years ago, Hon. L. C. Houk, after representing the Second Tennessee district for six terms, died soon after re election to the seventh term. His eldest son, Hon John C. Houk, was chosen to succeed him and also to serve in the following Congress. This to set straight so much of the record. There may be other instances, but I do not recall them IVINS DAVIS.

so frequent at the present time.

As an illustration, take the discovery of good or bad. gold in California. In 1904, in a very interesting article in the Chicago Record-Herald, describing the recently adopted method of using dredges for gathering Editor The Washington Herald: gold from the bed of Feather River, the writer said: "This district is in the very gold and started the rush for California the following:

In February, 1905, a writer in a New

city, the writer says: "It was very late in 1847 that Capt. John Marshall, working for a man named Sutter, in Calevaras County, discovered the little deposit of virgin gold which led to fortune-seekers by the scores of thousands to the sunset

Neither of these statements is correct. The fact is that Marshall, whom I knew these writers states, nor at Sutter's Fort. as the second one states; nor was it in nation. 1847, or in Calevaras County, as the third one states.

Marshall, while digging the race for a sawmill which he was building for Sutter at Coloma, in Eldorado County, on the south fork of the American River, some fifty miles from Sutter's Fort, and more than 100 miles from Feather River, discovered the gold on the 19th day of January, 1848, instead of 1877, and the rush to California was in the summer of 1849, instead of 1848. The date of his discovery is a matter of official record, and as I was one of the many who "crossed the so-called (but which should be termed the mountains), and as my journal shows I left St. Joseph, Mo., May 12, 1849, and arrived at Sacramento September 21, there can be no mistake about

Another example of historical error occurs in a recent publication in this city, where the events referred to occurred, which makes it the more remarkable, in that it is stated that "slavery in the District of Columbia was abolished eleven years before the civil war."

The records show that it was abolished in the District by act of Congress approved April 16, 1862. Slavery in the States, with the exception of certain specified districts, was abolished by a proclamation of President Lincoln, in the exercise of his war power, issued September 22, 1862, to

## The Safest Investments

Are those that do not fluctuate during disturbed conditions of the money or stock markets. First deed of trust notes (first mortgages), well secured oo real estate in the District of Columbia, constitute "gilt-edge" investments. They do not depend upon the financial responsibility of individuals or corporations for their stability, and are exempt from taxation as personal property. We can supply such investments in amounts from \$500 upward. Send for booklet, "Concerning Loans and Investments."
